APRIL

April TBD Meeting to discuss casebooks (Date/Time TBA)
(Executive Committee, Department Chairs and Associate Deans)

Late April Associate Dean for Academic Affairs sends letters to candidates informing them (with copy to their Department Chairs) of the Executive Committee decision and providing feedback on their review of the case.

B. *Instructions for Department Chairs*

The reappointment guidelines are available on the ADAA website:
<https://adaa.engin.umich.edu/admin/docs/reappointment/>.

Please ensure that your department's reappointment candidate(s) and casebook committee(s) are informed about these guidelines and instructions. Casebook chairs should be given deadlines to meet your department's internal review requirements, and candidates should be advised about working with their committees.

Casebook committees are expected to produce high-quality casebooks. Department chairs are ultimately responsible for casebook quality. Casebooks that do not meet the standards as specified in the *Reappointment Guidelines*, under Section G, "Detailed instructions for preparation of casebooks", may be returned for revisions. Inconsistencies between the recommendation of the department or reappointment committee and the compiled record will be noted by the Executive Committee and the casebook may be sent back with questions.

The casebook should be submitted via SmartPath by **March 2, 2020**. If you have any questions, please do not hesitate to contact Michael Wellman, Associate Dean for Academic Affairs, or Sherry Hall (x7-7018).

The reappointment review meeting with the Executive Committee, Department Chairs, and Associate Deans is scheduled for mid-April (TBD). Please mark your calendars. (Specific time TBA.) A review agenda and additional details will be provided prior to the meeting date.

C. *Instructions for the Reappointment Candidate*

In order for you to better understand the reappointment process, please review the instructions in Sections B and D. Your department will provide a list of the committee members for your reappointment casebook.

The *Reappointment Guidelines of the College of Engineering* may be downloaded at <https://adaa.engin.umich.edu/admin/docs/reappointment/>. You are responsible for preparing the casebook CV and Summary of contributions to teaching, research, service, and major impact, which represents a significant component of the casebook. This is accomplished through the SmartPath CV module (<https://engin-umich.mntnpass.com/cv>), which you may access directly and/or get assistance from a proxy. Your committee will also have access to your SmartPath CV and Summary of contributions to teaching, research, service, and major impact. Please coordinate with the committee on a timetable for providing and checking this material, and feel free to ask and answer questions about the content. You will be required to provide your reappointment committee the following items:

- a) A list of 2 to 4 names of potential internal faculty evaluators;
- b) A list of 2 to 4 students (both graduate students and undergraduates); and
- c) A representative set of up to four publications or manuscripts or other professionally creative products.

Do not approach any colleagues or students about providing a letter. Note that the reappointment reviews are completely internal to the College; only in unusual circumstances would a committee solicit information outside the University of Michigan. The review process, including Executive Committee decision, is scheduled to be completed near the end of April, at which time you will hear from your department chair and receive a letter from Michael Wellman, Associate Dean for Academic Affairs (ADAA).

We hope the above information is useful. If you have further questions regarding the reappointment process, please feel free to contact the ADAA, or Sherry Hall at x7-7018.

D. Instructions for Reappointment Committees

The most important decisions for the continued excellence and vitality of the College of Engineering are those related to faculty appointments and promotions. In this process you have an extremely important role. As a member of a reappointment committee, you will prepare the evaluative documentation and provide a primary recommendation regarding the candidate. The College Executive Committee (EC) will base its assessment on this material. The EC needs and expects a concise and forthright evaluation and a high-quality casebook. Inconsistencies between the recommendation of the department or reappointment committee and the compiled record will be noted by the EC and the casebook may be sent back with questions.

Please note the following:

1. Casebook guidelines and applicable template documents are available on the Associate Dean for Academic Affairs (ADAA) website: <https://adaa.engin.umich.edu/admin/docs/reappointment/>. Casebooks are assembled and routed through an online system called SmartPath. Additional details on document uploads follow within the guidelines.
2. Casebook contents are limited to 20 pages, not including internal letters of evaluation, candidate's cv, and Summary of contributions to teaching, research, service, and major impact.
3. Letters from individuals outside the University are not normally solicited. The committee must make a serious attempt at judging the quality of the scholarly work. This assessment can normally be accomplished only by committee members carefully reading a representative subset of the refereed publications. If you can also have the evaluation done confidentially by other members of the College or University faculty, please feel free to do so.
4. Numerical teaching evaluations provide only a partial picture of teaching quality. Please consider carefully the free form confidential input from student letters, and any other available evidence. Student letters are also a primary source of information about research mentoring, so be sure to include advisees of the candidate among graduate student writers.
5. Please keep in mind that your department needs to submit the casebooks to the ADAA office by **March 2, 2020**. Your department leadership will set a timetable for casebook preparation to support the departmental review process ahead of this deadline.
6. The reappointment review, including information gathered in this process and all recommendations and findings are *confidential*. Please do not disclose anything to anyone not involved in the reappointment decision.

Keep in mind that the reappointment committee is an evaluative body, not an advocacy committee; your responsibility is to produce a fair and candid review of the candidate's record. This review process serves not only to decide whether to reappoint, but as the basis for providing feedback to candidates about their progress toward tenure. Accordingly, the committee is requested to indicate areas of strength or weakness, which may also be included in the ADAA letter to the candidate communicating the decision of the EC. Your overall opinions on the case can and should be expressed, however, in a letter presenting the recommendation from the committee, based on the facts and findings of the casebook.

If you have any questions on the format or any of the above, please do not hesitate to contact Michael Wellman, Associate Dean for Academic Affairs, or Sherry Hall (x7-7018).

Thank you for your assistance in this vital process. The reappointment guidelines are located on our web site at: <https://adaa.engin.umich.edu/admin/docs/reappointment/>

Specific examples should be given, ideally with reference to the important papers. The most useful evaluation is a narrative assessment providing in-depth synthesis of multiple sources. VI. Evaluation Letters by Internal Reviewers

SmartPath will generate a list of all internal faculty and student reviewers solicited.

- Faculty (include a minimum of two letters from tenured faculty at or above the rank of the candidate)
- Students (undergraduate and graduate students, for a total of 6–8 letters)¹
 - Within SmartPath, the department will provide the information noted in the table below. The information may be added to the Evaluator Bio field in SmartPath for each student.
 - A minimum of two letters must come from graduate students, with priority to students mentored in research.
 - A minimum of four undergraduate student letters is required and at least one must come from the committee's list and not be a member of the candidate's research group.

Student Name	UG/Grad	Relationship*	Suggested by committee or candidate:	Letter received?

*Advisor, course instructor, research mentor, etc.

- Other personnel
- All letters received must be included in the casebook

¹ Selection of undergraduate students: Letters from a wide range of students are desirable. Therefore, letters should be solicited from students at different performance levels and with an eye towards diversity. The faculty candidate will recommend half of the names of undergraduate students, and the committee, through the department advising office, will identify the other half. Letters will be solicited from this cohort.

Appendix – Records of Communications

Sample emails will be generated here via SmartPath

- a. Include a copy of the email sent to all internal faculty reviewers.

- b. Include a copy of the email sent to all students.
