Biography:
Jan Stegemann is Professor of Biomedical Engineering and Director of the Advanced Medical Product Engineering and Development (AMPED) program at the University of Michigan. His research interests are in the areas of biomaterials and cell-based therapies for cardiovascular and orthopaedic applications. His teaching activities are mainly in the areas of biomaterials, tissue engineering, and medical product development. In addition to his current roles, Dr. Stegemann has served as Associate Chair for Master’s Programs (2016-2021) and Associate Chair for Undergraduate Education in the Biomedical Engineering Department (2011-14), and has served on numerous faculty recruiting, curriculum development, and departmental planning committees. He is a member of the Advisory Board of the Bioengineering Program at UM Dearborn and serves on a number of government panels, including the FDA Advisory Committee (FACA) on Cellular, Tissue, and Gene Therapy. He holds leadership positions in several professional societies and is a Fellow of the American Institute of Medical and Biological Engineering (AIMBE), a fellow of the Biomedical Engineering Society (BMES), and a Fellow of Biomaterial Science and Engineering (SFB). He received BS and MS degrees in Chemical Engineering from the University of Toronto, and a PhD in Biomedical Engineering from the Georgia Institute of Technology.

Position Statement
My main objective as a member of the CoE Rules Committee will be to achieve clarity on College policies and regulations, with particular emphasis on addressing emerging situations in which rules need to be reviewed or revised. The CoE has achieved good governance of a very complex organization, but there is always a need for reviewing, revising, and in some cases simplifying the rules that guide our unit as the landscape changes. The perspective of the faculty is important in this process, as it can help to guide the CoE administration in maintaining and establishing best practices. My experiences and positions at the U. of Michigan have prepared me well to be an engaged and productive member of the Rules Committee, and I am confident that I can be effective in this role.
